Warranty Policy

Premium Tool hand tools carry a **Lifetime Warranty** when used for the purposes for which they were designed. **Lifetime Warranty** does not cover tools that have been abused, altered, or improperly maintained.

Hacksaw blades, number and letter stamps, bolt cutters, and tape measures carry a six month warranty for repair or replacement of defective materials or workmanship. Warranty claims must be returned to Premium Tool or an authorized dealer freight prepaid.

No claims for normal wear and tear will be considered. Chrome sockets that have been used with impact wrenches are not covered by any warranty. Property damage or liability claims are the responsibility of the purchaser.

Warranty will be limited to repair or replacement of defective tools.

Positive locking mechanism - Dial and lock in

Spring loaded pull down lock ring

***Double floating pawl system
2-stage gear engagement

- Ratcheting head with quick release**
 - Individual serial numbers and calibration certificates
 - Comes complete with blow mould case
 - Meets or exceeds ASME B107.14M-2004 and BSEN26789
 - Used by automobile manufacturers worldwide
- **Quick release ratchet is available for 3/8 & 1/2 drive models only
- ***Double pawl system is available for 3/8, 1/2 & 3/4 drive models only

Torque Wrench Warranty Policy

- One year warranty on materials and workmanship
- 90 day warranty on calibration

Torquing and Safety Tips

- Always set the torque wrench to the 20% setting on the scale
- Do not use the torque wrench to loosen tightened fasteners
- Stop pulling when the pre-set torque has been reached
- Never use an extension unless the model is equipped with its own extension
- Provide adequate storage to protect torque wrenches from damage

Recalibration Service and Schedule

Since 2004, PTA has offered full repair and recalibration service on PTA torque wrenches. Our testing equipment is calibrated to an accuracy of +/- 0.5% by a facility accredited by the Laboratory Accreditation Bureau.

PTA recommends that all torque wrenches be recalibrated at least once a year or every 5000 cycles.

SET 7 PC. NUT DRIVER

SIZE	PROD. NO.
S.A.E.	T3658
METRIC	T3671

All Premium Nut Drivers are chrome vanadium construction.

Black hex keys - Industrial heat treated chrome vanadium steel (CR-V)
Brite finish hex keys - S2 alloy steel hardened to HRC 58-62, which allows 50% more torque than CR-V keys

- Precision chamfering for ease of insertion
- Long arm series allows access into tough spots and more torque on the fastener
- Ball nose design allows engagement of fastener at up to a 25° angle
- Convenient carrying cases keep hex keys organized
- All items meet A.N.S.I. standards for hardness and torque

- Forged from alloy steel for extra heavy duty strength.
- Black oxide finish.
- Large striking surface for surer blow contact and more efficient transmittal of force.
- Short handle permits use in close quarters.
- Box opening designed to remain on fastener when wrench is struck.
- For use where extreme force is necessary.
- Heavy box wall provides greater torque transmission.
- Offset handle clears obstructions.
